BULUT COLLECTION

The Collection of Timeless Aesthetics

Bulut Collection

The Cloud Bedroom Set is an elegant collection that combines modern design principles with a warm and peaceful atmosphere. The softly upholstered headboard in the shape of a cloud gives the set its character, creating a comfortable and inviting look with its cream tones; while the dark walnut wood surfaces add a strong and sophisticated touch to the design.

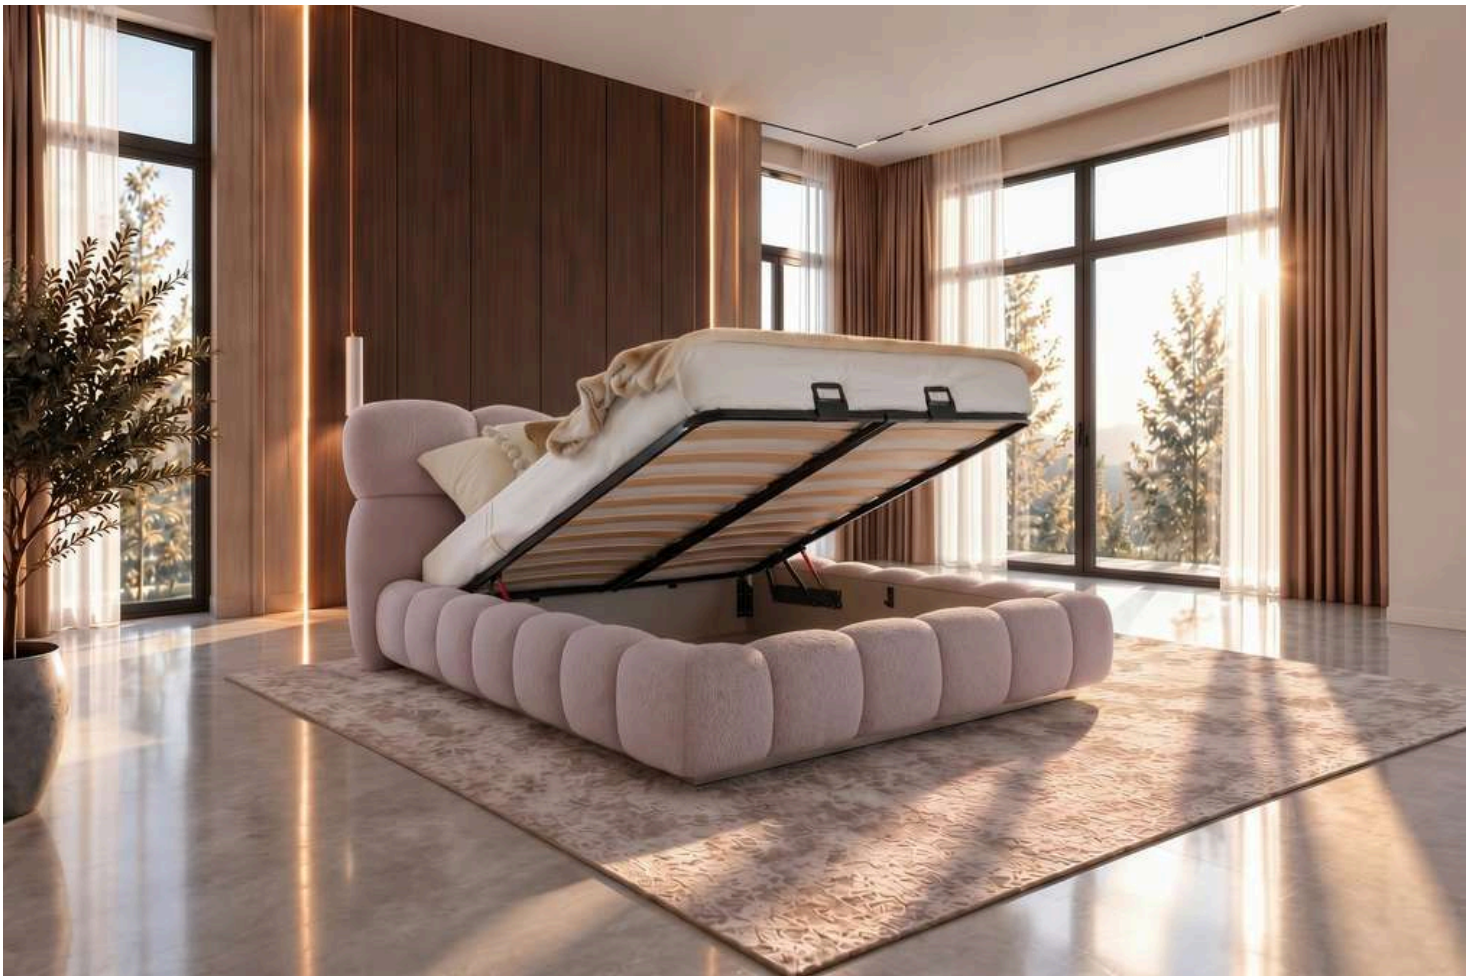

The balanced combination of cream, milk, and warm coffee tones, complemented by vertical LED lighting details and clean lines, adds a modern elegance to the space. The soft-textured bench, elegant bedside tables, and minimalist complementary details strengthen the overall coherence of the set.
