The Collection of Refined Aesthetics

Noble Collection

The Noble Dining Room creates not just a furniture set in your living room, but a bold architectural focal point that defines the overall elegance of the space.

The large and powerful leg architecture of the table, the rich texture play on the console covers, and the clean lines symbolizing the series' nobility create an impressive visual hierarchy in the space. Reinterpreting classic lines with a groundbreaking modern aristocracy, Noble is designed for those who want to showcase a noble, assertive, and timeless design power in their dining area.
